CAME... TO IMPRESS!

NSP 1850 is a beautiful and quite handy device that makes the difference in its own category. The factor that will amaze you is the **detachable battery's** autonomy, with a **capacity of 1200 mAh**. In fact, on a full charge you will be able to enjoy 20 hours of continuous talk time and up to **30 days on standby**, for great battery autonomy so that you will never forget, where the **Micro USB** charging port resides. Moreover, features a main **rear camera** for your favorite shots, with photos but also other types of data being stored in the internal memory **32MB**. You can even extend it externally with a **Micro SD memory card of up to 32 GB**, for total freedom of movement.

CALL... SOS!

With a single touch of a special key it automatically calls **Emergency Communications Service (112)** even when the device **does not dispose a SIM card or has no signal**.

Just in case the device holds a SIM card or has a signal **automatically dials the numbers you have selected and sends an SOS message (up to 5 contacts) at a time**.

USABILITY!

NSP 1850 supports **using 2 SIM cards at the same time**, to be able to separate your professional from your personal life.

ENTERTAINMENT!

NSP 1850 features:

- 1) **Radio button** with **built-in radio tuner** to listen to your favorite stations and news of the day **without having to use your HANDS Free**.
- 2) **MP3 button** in order to listen to your favourite MP3 tracks.
- 3) **Sokoban game is preinstalled** to make your time spent in public transport or even at home more enjoyable.
